MEMORANDUM FOR: Mr. [redacted]

In reference to the policy paper on Information Processing and ADP, I have drafted a revision which is attached. As you will note, I have changed some of the wording to reflect more specifically the responsibilities of OCS and those of the other Directorates. My comments fall in the following areas:

Para 2.a. -- The change ties this paragraph down to policy development and staff guidance--electronic processing (computing equipment). I changed this because each Directorate has definite responsibilities for information processing activities and this paragraph should relate to the topic at hand, namely, computer applications.

Para 2.d. -- This is changed to reflect OCS as providing computer services support in the form of program assistance and operating computer equipment. A clear distinction is made here that "problem analysis" is the responsibility of the Directorate concerned--in the case of DD/S the functions of the [redacted] Group.

25X1

These are the principal changes and I believe they more accurately reflect the agreement reached with Colonel White in the meetings on this subject.
